NORTEST CALIBRATION LABORATORY

Nortest Cyprus LTD, established in 1992, is an industrial inspection, calibration, research and technology center and an accredited laboratory as per ISO 17025, an inspection body as per ISO 17020 and a notified body (CE2338) offering a wide range of services to its clients. The company helps its clients overcome their challenges through its inspection, certification and training, laboratory and consulting services.

Our Calibration Laboratory is accredited to ISO/IEC 17025 by Hellenic Accreditation System (E.SY.D.) and its capabilities include but not limited to, testing and calibration for mass, temperature, humidity, pressure, dimensional metrology, flow, force, torque and electrical systems. Nortest Calibration Laboratory provides services for industries such as oil and gas, defence, food, manufacturing, engineering, pharmaceutical, medical, hotel and service sectors. All our activities are performed to stringent quality control procedures in line with ISO/IEC 17025 requirements.

A team of dedicated engineers and customer service professionals provide both experience and expertise in maintaining equipment at peak performance, with unrivalled commitment to customer service. Our state of the art laboratory and service network is a reliable and low risk solution to calibration and inventory maintenance, allowing our customers to focus on their core business activities.

FEATURES AND BENEFITS

- Continual accreditation
- Calibration management solutions
- Instrument recall service providing reminders for due items
- Fixed price quotations, service level agreements and service contracts
- Fast and efficient service
- Technical investigations
- Cutting edge equipment
- Detailed Reports and Certificates of Traceability
- Onsite testing and calibration customised turnaround time service
- Optional pick-up and delivery
- Calibration training and consultancy
- Dedicated staff of engineers, scientists and specialist technicians

SELECTED CALIBRATION CAPABILITIES

TEMPERATURE & HUMIDITY

Data loggers
Dial thermometers
Digital thermometers
Fridge, Refrigerators, Freezers
Humidity meters & gauges
Incubators
Ovens, Autoclaves
Relative humidity meter
Thermocouple
Thermometers

PRESSURE & FLOW

Flow meters
Industrial and test gauges
Manometers
Pressure gauges
Pressure indicators & recorders
Pressure measuring devices
Pressure meters
Tyre pressure gauges
Vacuum gauges
Vacuum measuring devices

MASS

Analytical balances
Platform scales
Standard weights
Weighing equipment
Weighing scales

FORCE & TORQUE

Compression
Load Cells
Torque Wrenches

DIMENSIONAL METROLOGY

Bevel protractors
Bore gauges
Depth micrometers
Electronic and vernier calipers
Electronic indicators, dial gauges
Electronic levels
Engineering metrology equipment
External micrometers
Feeler gauges
Gauge blocks and accessories
Length measuring machines
Spirit levels
Tape measures, steel rules
Thickness gauges

ELECTRICAL

Ammeters
Analog Meters
Clamp meters
Insulation testers
Lux meters
Megohm Meters
Multimeters
Panel Meters
Sound meters
Voltmeter
Watt meters

OTHER

This is a brief snapshot of our capabilities. Even if your test is not listed or if you have any further queries regarding our calibration service please feel free to contact us and a member of our team will be happy to help. With our extensive expertise and network, we should be able assist you with your requirements.
